To Dr. Guppy,

RE: Geoff Hendricks
DOB: 04/11/1962

Thank you for your referral. I had the pleasure of meeting Geoff at the outpatient urology clinic today. As you know, Geoff has reported frank haematuria for the past week with some right flank tenderness. He also had some associated weight loss with no other constitutional symptoms.

I reviewed the CT images and agree Geoff warrants further investigation. I have recommended we proceed with a renal biopsy. This has been booked for next Tuesday 25/09/18. I have also referred Geoff for further imaging of lumbar spine and chest, to assess for further disease.

I will keep you updated.

Kind regards,

Dr Frank Perreti
