

Abdominal CT report

DATE: 17 / 05 / 2018
PATIENT: Simon Tucker
DOB: 24 Aug 1961

PAGE:
REF:

CLINICAL NOTES:

Worsening abdominal pain. Likely right inguinal hernia. ?SBO
?strangulated hernia

DIAGNOSIS:

There is a large right-side inguinal hernia which contains loops of small bowel, mesentery and omentum. The contained small bowel loops appear distended with some surrounding stranding. This is suggestive of a likely strangulated right inguinal hernia.
